Sergio Lee · CPA · Builder · CFO

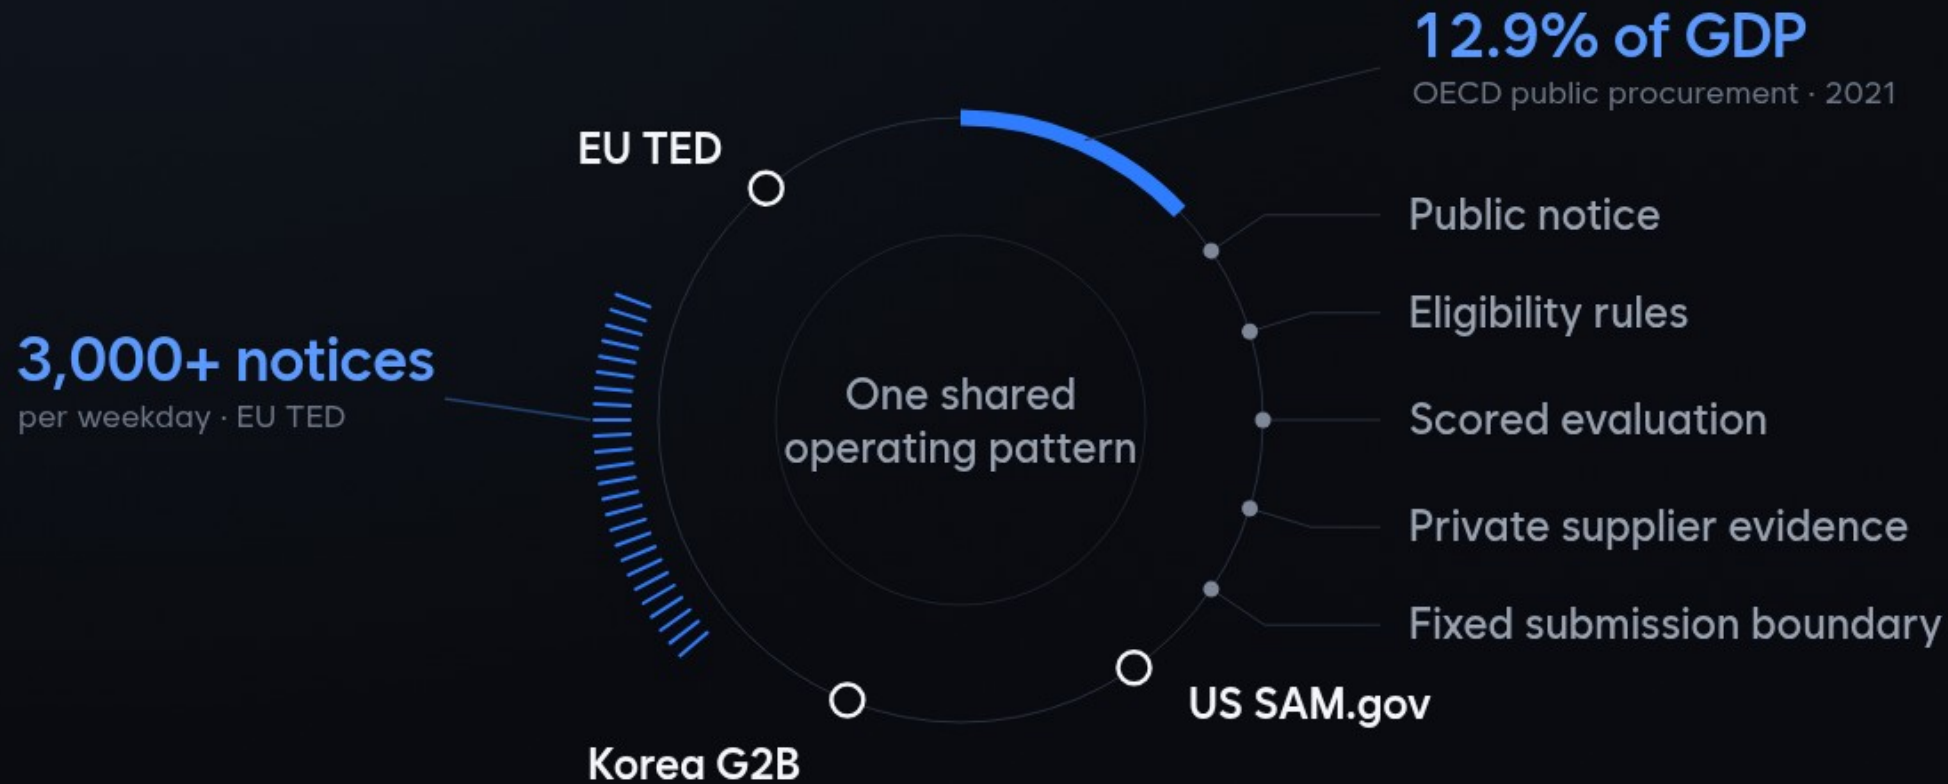

Accounting-Firm + Enterprise Friction · 6 Breakpoints

2 perspectives · 6 breakpoints · 1 deadline

Breakpoint	Accounting-firm burden	Enterprise burden
Eligibility	Re-read rules for every client	Legal reconfirms per entity
Evidence	Chase documents by email	Records scattered across teams
Ownership	One partner carries the file	No named owner per task

Global Public-Sector Pursuit · Shared Operating Pattern

Verification

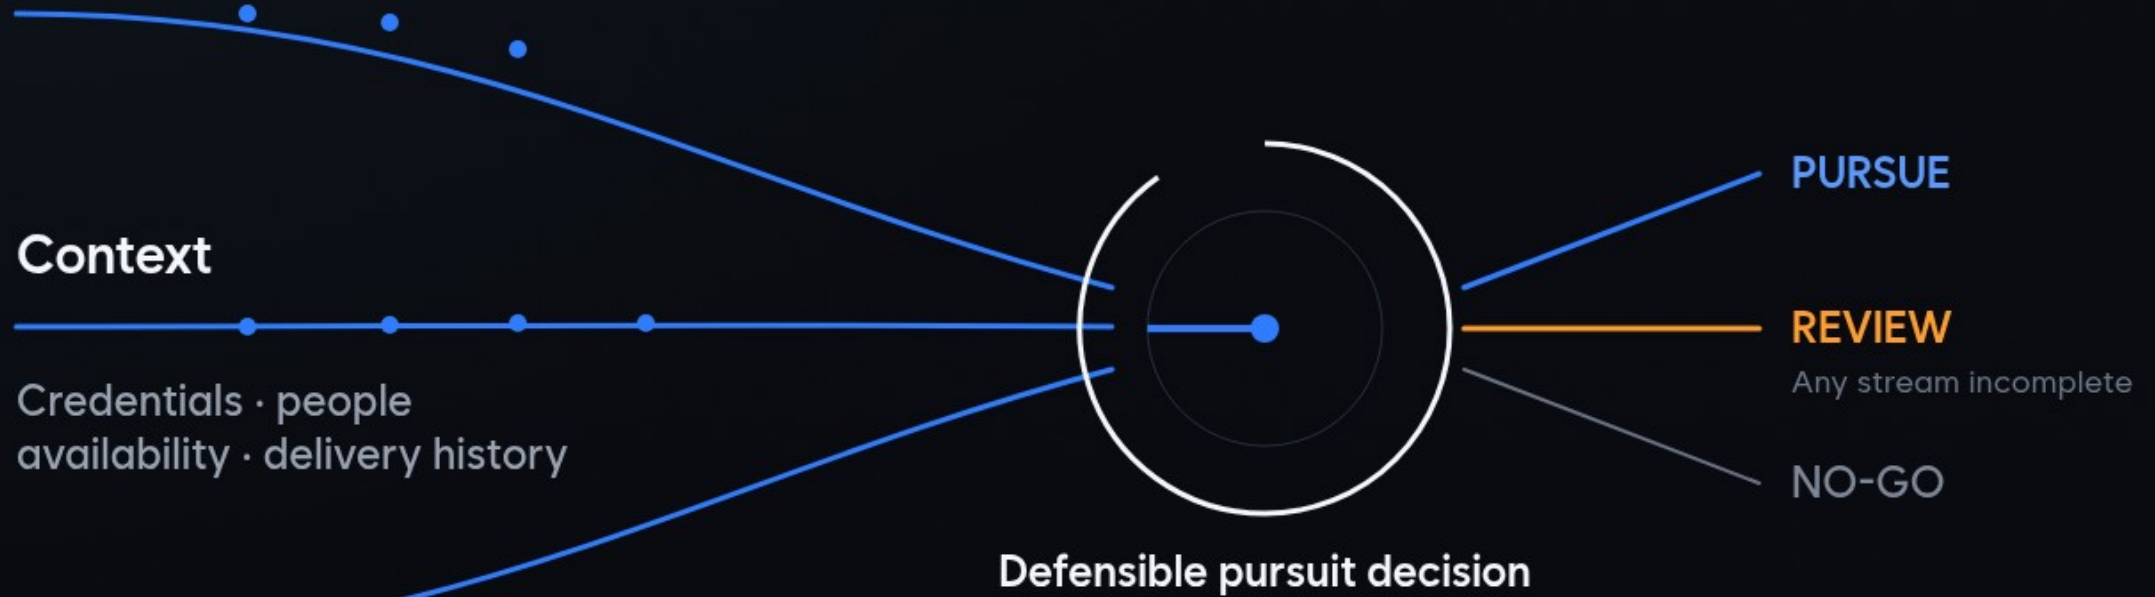

Source · eligibility · evidence

Context

Credentials · people
availability · delivery history

Strategy

Weights · position · owner

//

Fluency is not evidence.

A proposal can sound excellent and still be indefensible.

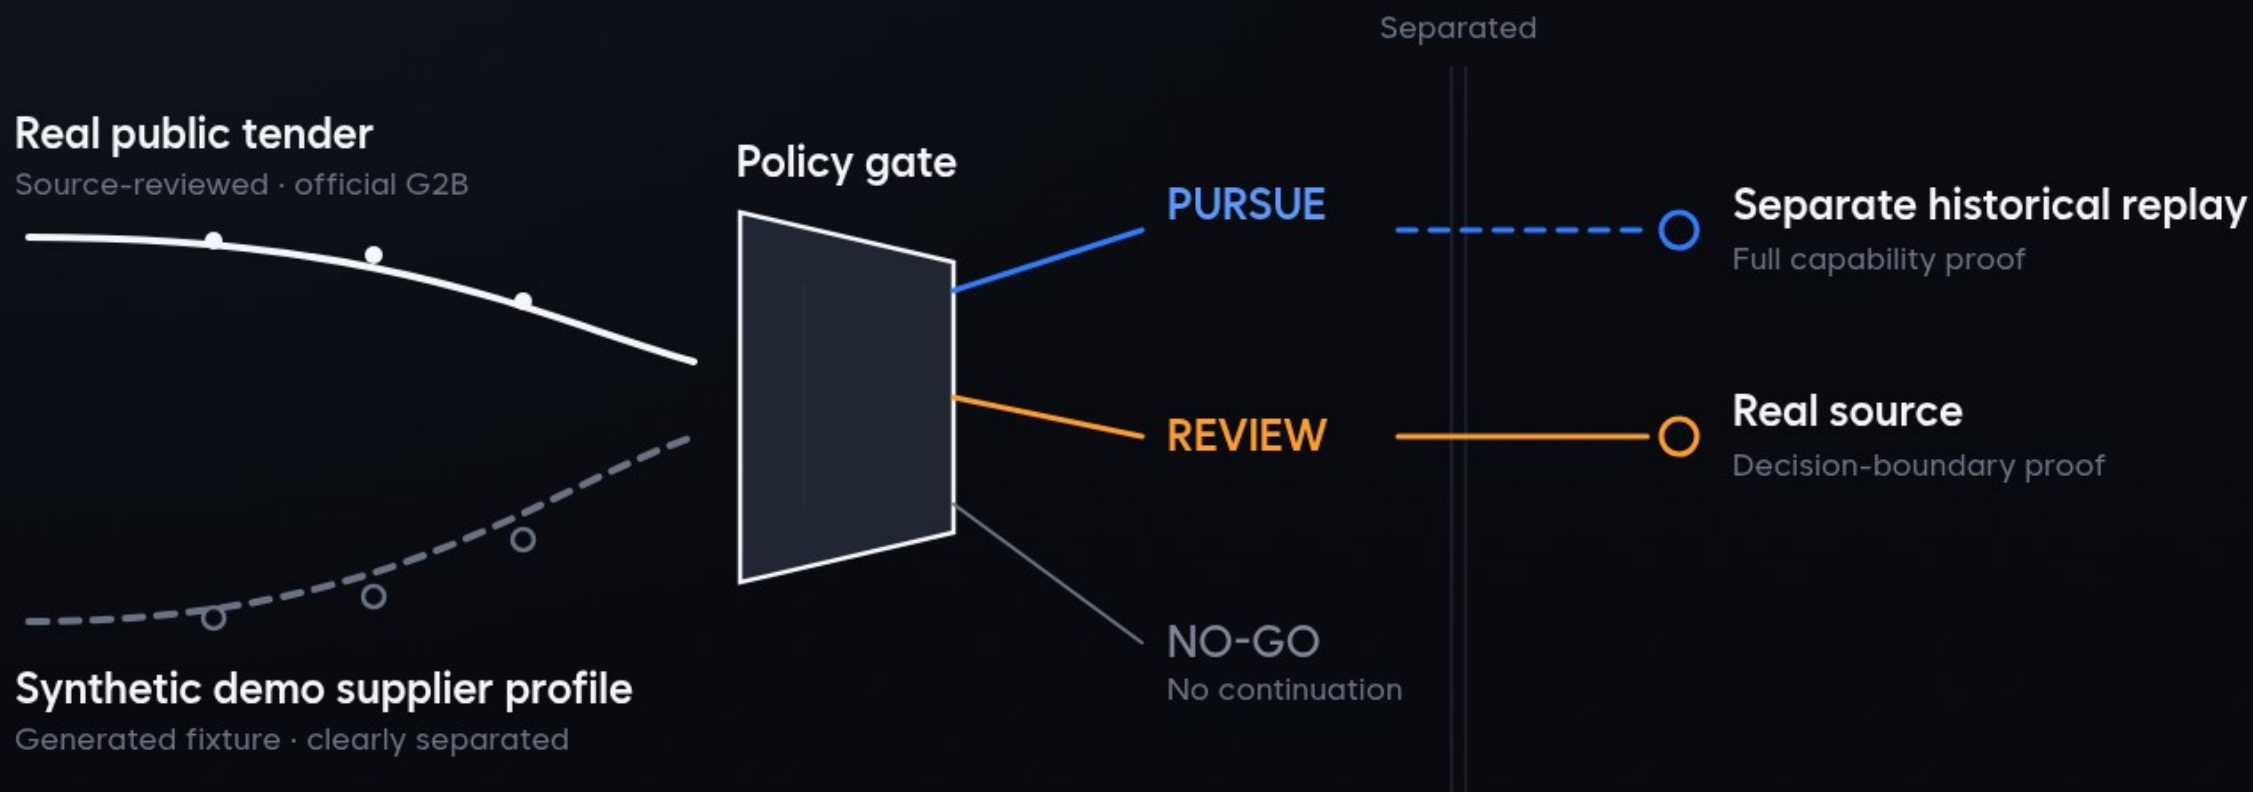

Should we bid? → Who owns what next?

One accountable run, from public notice to a named owner

same run_id · persisted · replayable in Snowflake

Public Tender + Supplier Evidence · Controlled Decision

No silent fixture fallback

Two Evidence Paths · REVIEW / PURSUE

Real Suwon G2B source

REVIEW

Supplier evidence required

Item	Technical	Price	Run 0
KEW 250M	90	10	Not created

☒ Decision summary

Decision	Highly eligible	Run status
REVIEW	4	Not created

Supplier evidence required

SPUR is the current evidence for this review. The supplier's profile has been reviewed for a subset of required evidence, and a strategy for evidence is generated. The complete PURSUE claim is shown in the [separate synthetic replay](#).
