

SNOWFLAKE COCO CLI HACKATHON 2026 · GRAND FINALE

BidPilot

Win the score, not the prompt.

The bid is often lost before writing begins.

01

Eligibility

Can this supplier credibly bid.

02

Score

Where the official weight sits.

03

Evidence

What the supplier can prove.

04

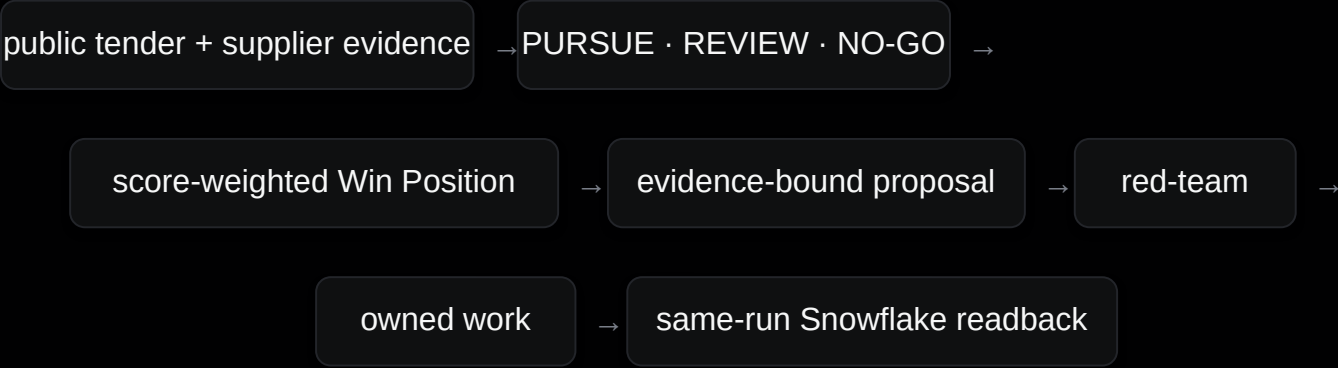

Ownership

Who is accountable for the work.

Proposal teams commit resources before the buyer's score and the supplier's proof agree.

One accountable chain.

A general LLM summarizes. BidPilot preserves the decision and execution contract.

`cortex-final-20260802-a`

`Cortex session + Snowflake query provenance · same run_id`

Human approval stays in the loop.

BidPilot prepares and governs the work. The first buyer is a small B2G proposal team.

Commercial path: team subscription + usage-based runs.

Win the score, not the prompt.

-
- 01 A defensible pursuit decision.
 - 02 A score-weighted win strategy.
 - 03 Execution-ready proposal work.
-

Persisted and replayable in Snowflake.
